### BackupEDGE 02.03.00 BETA

Introducing **cloud storage** for backups. **BackupEDGE** is the first commercial UNIX and Linux backup product with fully integrated support for the **Amazon Web Services S3** storage service. And when we say "fully integrated support", we mean:

- Full or partial backups of servers or parts of servers with dual data integrity checking (bit-level + full file checksum).
- **Instant File Restore™**, providing access to individual files and folders in seconds. Only the archive blocks containing the actual data you want to restore need to be transmitted across the network link.
- Full compatibility with **RecoverEDGE** bare metal disaster recovery.
- No caching of entire backups on the local hard drive. Only a small (10MB) segment of your backup gets cached at any one time.
- Compression and encryption support.

We're thrilled to be partnering with Amazon to allow **BackupEDGE** to support their high-availability storage cloud at reasonable prices.

## BackupEDGE / S3 Pricing

In fact, we're so excited that during the beta period (now through October 31, 2008), **we're paying all the Amazon fees!**

There is only a \$5.00 signup fee when you register **BackupEDGE** to your Amazon account. After that, we'll pay whatever storage charges you incur while testing the product and making sure it is right for you or your clients.

Beginning November 1, 2008, a \$30.00 monthly fee will be charged and billed directly by **Amazon Payments**, which will include:

- 25GB of on-line storage
- 40GB of uploads per month
- 40GB of downloads per month
- **BackupEDGE** Support Agreement

If you exceed these amounts, small per-GB fees will be charged:

- \$.25 (yes, that's really 25 cents) per GB stored after the first 25GB per month.
- \$.20 per GB uploaded after the first 40GB per month.
- \$.20 per GB downloaded after the first 40GB per month.

And yes, GB is Gigabytes!

Browse to our Web site today to learn more about using **BackupEDGE** with **S3**.

<http://www.microlite.com/s3>

or simply

<http://www.microlite.com>

**FTP Backups** have been a great way to perform Internet Backups. **Amazon S3** provides another useful tool for organizations needing secure, reliable on-line storage at reasonable prices.

Other additions to 02.03.00 include filesystem labeling in the OpenServer 6 and UnixWare 7 versions of **RecoverEDGE**,

improved support for disk by-id in Linux releases including SUSE, and updated **FTP Backup** support with improved debugging.

## New Canadian Distributor

We're happy to announce the appointment of **The Kingsway Group Inc.** as our new Canadian distributor. TKG has a long history of service and support to our community. **BackupEDGE** licenses are now in stock, so Canadian resellers, please contact them today to make your purchasing arrangements. The phone number is:

**416-667-1224.**

## Certification Classes

Microlite Corporation offers a fast-paced, one day intensive **BackupEDGE** training course for partners and interested end users. At the end of the course, users are given a Certificate of Completion, while partners are given a certificate designating them as **Certified BackupEDGE Resellers** and their names posted on our web site.

## Current Schedule

### October 22, 2008 (Wednesday)

Luxor Las Vegas  
Las Vegas, NV

Class will run from 8:30am until 5:00pm. Please call our sales department at 888-257-3343 quickly to register for the class, as time is running short.

## Fees

Fee for the course is **\$400.00**. This includes a continental breakfast. Each attendee will get a not-for-resale **BackupEDGE** license including encryption at no extra charge (current retail value for a **BackupEDGE** license including encryption is \$560.00).

## Special Pricing

A special price for the class is available to those attending **SCO TEC Forum 2008** in Las Vegas during the same week. See the [Microlite Web Site](#) for more information.

## SCO OpenServer 5

---

We've mentioned this before. Microlite no longer supports SCO OpenServer 5.0.0 through 5.0.4. You must have 5.0.5 or later to use current releases of **BackupEDGE**.

## Corporate Logo

---

This new Microlite logo is available to our channel partners for newsletters, web sites, product links, etc. Please browse to: <ftp://ftp.microlite.com/pub/logos>.

There are a variety of different sizes and image types. Partners, **please replace all older versions of our logo** with this one. Thanks.

## Support Agreements / Policies

---

It is important for all current users of **BackupEDGE** to be protected under a *Support and Maintenance Agreement*. Under an active Agreement:

- Clients may contact Microlite Corporation directly for technical support.

- Registered **BackupEDGE** resellers may contact Microlite Corporation on behalf of the client.
- The client's **BackupEDGE** license is eligible for updates, same-platform upgrades and cross-platform upgrades at no charge.

*Support and Maintenance Agreements* are now available from US resellers and distributors. Please order part number **TSC1Y**. Outside the US, or if you do not have a reseller or distributor, please contact [sales@microlite.com](mailto:sales@microlite.com).

Resellers or partners who purchase **BackupEDGE** through distribution must have a valid Microlite Dealer Agreement in effect for us to provide you technical support for eligible clients. This does not affect your relationship with your distributor. Please contact [sales@microlite.com](mailto:sales@microlite.com) if you have not yet signed a Dealer Agreement.

## Update / Upgrade Policies

---

All users of **BackupEDGE** 02.00.01 (which started shipping on August 15, 2003) or later may download and install the current 02.02.00 release as a free update, provided it is on the same platform. Users will also be able to update to 02.03.00 when it becomes available, at no extra charge.

In-stock unregistered 2.x licenses will still work. There is no need to exchange or rotate them.

Users of legacy 01.0x releases may purchase an inexpensive upgrade from their favorite channel partner.

Download by clicking [Downloads](#) from the [Microlite](#) home page, or from your bookmark if you created one after last registering for a download.

Our formal policy for updates and upgrades can be found on our web site. It is available as a direct link from our home page, or by browsing to:

[http://www.microlite.com/Downloads/Upgrade\\_Policies/upgrade\\_policies.html](http://www.microlite.com/Downloads/Upgrade_Policies/upgrade_policies.html)
